Arabia - Corporate Profile

ETCS

EXPERT TECHNICAL CONTRACTING SERVICES

Advanced Protection for Long-Term Durability

Industrial assets are continuously exposed to harsh environmental and operational conditions. ETCS delivers advanced surface protection solutions that safeguard critical infrastructure against corrosion, wear, and environmental deterioration, ensuring long-term reliability and performance.

ETCS Saudi Arabia - Corporate Profile

ETCS

EXPERT TECHNICAL CONTRACTING SERVICES

Comprehensive Surface Protection Services

- **Abrasive Blasting**

Effective surface preparation to achieve superior coating adhesion and long-lasting protection.

- **High-Pressure Water Jetting**

Advanced ultra-high-pressure water jetting solutions for efficient coating removal and surface cleaning.

- **TSA Coating**

Thermal Spray Aluminum (TSA) coating designed to protect assets against corrosion under insulation (CUI) and harsh operating environments.

EXPERT TECHNICAL CONTRACTING SERVICES

- **ARO Coating**

High-durability abrasion-resistant overlay coating for pipelines and equipment exposed to mechanical damage and wear.

- **Anti-Corrosive Coating**

Specialized protective coatings that safeguard metal surfaces from corrosion, rust, and environmental degradation.

EXPERT TECHNICAL CONTRACTING SERVICES

Insulation services

ETCS

EXPERT TECHNICAL CONTRACTING SERVICES

Protecting Industrial Performance Through Insulation

ETCS is committed to delivering high-performance insulation solutions for industrial facilities and critical assets. Our comprehensive services help clients reduce heat loss, improve process efficiency, control sound transmission, and ensure reliable protection in demanding environments.

EXPERT TECHNICAL CONTRACTING SERVICES

● Thermal Insulation

High-performance insulation solutions designed to improve energy conservation and operational efficiency across refineries, power generation facilities, and petrochemical plants.

● Cryogenic Insulation

Specialized low-temperature insulation systems engineered to maintain process integrity and thermal stability in LNG and petrochemical operations.

● Acoustic Insulation

Advanced sound control solutions that minimize industrial noise levels, creating safer, quieter, and more efficient working environments.
